Wire and Cable Identification

HLX-NEL

HLX-NEL Cable Markers are designed to offer flexibility when it comes to wire and cable identification. Manufactured from the same Low Fire Hazard, UV stabilised material as HLX, with the difference being that it is assembled in a Narrow Edge Leading (NEL) format. Ideal for applications where low fire hazard characteristics (low smoke, low toxicity and low flammability) and UV protection are critical. Applied using cable ties, HLX-NEL Cable Markers give the ability to identify large diameter wire and cable, as well as post connector installation.
